

HIBERNIAN HOTEL STUDY

BY REL GROUP

INTRODUCTION

In 2013, the management of The Hibernian Hotel chose RELTEC to upgrade their drinks dispense and food cooling systems in the hotel.

One of the primary reasons they chose RELTEC to upgrade their systems was to reduce the amount of equipment required to cool both beverages & food while consistently serving a quality beverage at its correct temperature.

SCOPE OF WORKS

- Replacement of compressors for ice bank, bottle coolers, beer cold room and food cold rooms with a centralised glycol system.
